

SUBJECT INDEX

A

- Abetalipoproteinemia
tissue factor pathway inhibitor and, 109
- Abuse history
gastrointestinal disease and, 488-89
- Accelerated rejection
xenotransplantation and, 348
- Accessory pathways
catheter ablation in supra-ventricular tachycardia and, 416, 420-21
- Accommodation
xenotransplantation and, 356-57
- Acemannan
chronic wound therapies and, 476
- Acetaminophen
fulminant hepatic failure and, 183-84, 188
- Acetazolamide
pancreas transplantation in diabetes and, 289
voltage-gated ion channelopathies and, 439
- Acetylcholine
amyotrophic lateral sclerosis and, 137
voltage-gated ion channelopathies and, 432-33
- Aching
cumulative trauma disorders and, 9
- Acquired immunodeficiency syndrome (AIDS)
tuberculosis and, 49, 51
- Action potentials
voltage-gated ion channelopathies and, 432-33, 438
- Acute rejection
xenotransplantation and, 348
- Acyclovir
Epstein-Barr virus-associated posttransplant lymphoproliferative diseases and, 385-88, 390-91
hepatitis C virus and, 314
- Adenomatous polyps
sporadic colorectal cancer and, 375-77
- Adenosine
organ preservation and, 235, 239-41
- Adhesion molecule receptors
xenotransplantation and, 348
- Adipose tissue
alcohol in elderly and, 125
- Adrenalectomy
laparoscopic, 155
- Adrenocorticotrophic hormone (ACTH)
ulcerative colitis and, 499, 502
- Adult respiratory distress syndrome (ARDS)
anticytokine therapy and, 201
antioxidants and, 201
arachidonic acid metabolites and, 198
bone marrow transplantation in β -thalassemia and, 327
corticosteroids and, 200
cytokines and, 196-97
definition of, 193-96
etiology of, 196
ibuprofen and, 201
incidence of, 196
inflammatory response and, 196-99
lung repair and, 199-200
oxidants and, 197-98
pharmacologic modalities and, 200
proteases and, 199
supportive care and, 200
surfactant and, 200
treatment of, 200-1
- Advanced protein glycosylation
advanced glycation end products and, 224-31
Alzheimer's disease and, 230-31
biochemistry of advanced glycation end products, 225
cellular receptors and, 226-27
clinical studies and, 230
extracellular matrix and, 225-26
inhibitors and, 228-30
introduction to, 223-24
- African Americans
carcinoma of head of pancreas and, 362, 365
hypertension in elderly and, 28
- tuberculosis and, 48, 50
- Africans
HLA class II antigens and, 18
- Aging
advanced protein glycosylation and, 223-31
subclinical hypothyroidism in depression and, 40, 43
- Alanine aminotransferase (ALT)
bone marrow transplantation in β -thalassemia and, 320
hepatitis C virus and, 311, 313-14
- Albumin
diabetes and, 79-91, 273-74
hepatitis C virus and, 313
xenotransplantation and, 346-47
- Alcoholics Anonymous
alcohol in elderly and, 129-30
- Alcoholism
in elderly
early- and late-onset alcoholism, 127-28
epidemiology of, 123-25
treatment of, 128-31
underdiagnosis of, 125-27
- Alendronate
osteoporosis and, 253
- Alkaline phosphatase
hepatitis C virus and, 313
- Alkaloid
plant
wound healing and, 476
- Alkylating agents
bone marrow transplantation for multiple myeloma and, 299-300
- Allogeneic transplantation
bone marrow and, 300-1
- Allografts
reduced-size hepatic transplantation and, 507-11
- α -blockers
hypertension in elderly and, 32-33
- α -helicity
nuclear hormone receptor gene superfamily and, 446
- Alprazolam
psychiatric comorbidity with gastrointestinal disease and, 493

- Alzheimer's disease
advanced protein glycosylation and, 230-31
- Amadori product
advanced protein glycosylation and, 224, 228
- Amanita phalloides*
fulminant hepatic failure and, 183
- Ambulatory monitors
automatic
hypertension in elderly and, 29
- Amenorrhea
osteoporosis and, 250
- Aminoguanidine
advanced protein glycosylation and, 228-30
- α -Amino-3-hydroxy-5-methyl-4-isoxazole propionic acid (AMPA)
amyotrophic lateral sclerosis and, 136
- Aminosilicates
ulcerative colitis and, 497-99, 501-3
- 5-Aminosalicylic acid (5-ASA)
ulcerative colitis and, 498
- Amino-terminal domain
nuclear hormone receptor gene superfamily and, 443-44, 447, 450
- Amtripyline
psychiatric comorbidity with gastrointestinal disease and, 492
- Amniocentesis
fetal surgery and, 73
- Amniotic fluid
leak
fetal surgery and, 68
- Amylase
pancreas transplantation in diabetes and, 288-89
- Amyloidosis
transmissible, 57-64
- Amyotrophic lateral sclerosis (ALS)
autoimmunity and, 136-38
excitotoxicity and, 135-36
familial, 134
free radicals and, 134-35
future research and, 139-41
glutamate and, 135-36
introduction to, 133
pathophysiology and, 138-39
sporadic, 135-38
- Analgesics
ulcerative colitis and, 500
- Anatomic malformations
fetal surgery and, 69-76
- Androgen receptors
nuclear hormone receptor gene superfamily and, 444, 447, 450-51
- Anesthesia
fulminant hepatic failure and, 183
- Aneurysms
catheter treatment of congenital heart disease and, 162-63
- Angina
unstable
glycoprotein IIb/IIIa antagonists and, 261
- Angiogenesis
chronic wound therapies and, 470, 473
- Angiography
carcinoma of head of pancreas and, 361, 363-64
catheter treatment of congenital heart disease and, 164
transjugular intrahepatic portosystemic shunts and, 97-98
Zollinger-Ellison syndrome and, 401-3, 407
- Angioplasty
balloon
catheter treatment of congenital heart disease and, 161-63
glycoprotein IIb/IIIa antagonists and, 261-63
- Angiotensin-converting enzyme (ACE) inhibitors
hypertension in elderly and, 33
left ventricular remodeling after myocardial infarction and, 455, 461-63
microalbuminuria in diabetes and, 87-91
- Anorexia
tuberculosis and, 51
- Anthracyclines
bone marrow transplantation for multiple myeloma and, 299
- Antibiotics
ulcerative colitis and, 500, 503
- Antibodies
Epstein-Barr virus-associated posttransplant lymphoproliferative diseases and, 383, 392
insulin-dependent diabetes mellitus and, 20
subclinical hypothyroidism in depression and, 39-41
transmissible spongiform encephalopathies and, 62
vascular endothelial cell growth factor and, 475
xenotransplantation and, 345, 348-49, 351, 354-56, 358
- Antidepressants
psychiatric comorbidity with gastrointestinal disease and, 492-93
subclinical hypothyroidism in depression and, 42-43
- Antidiarrheals
ulcerative colitis and, 500
- Antidiuretic hormone
diabetes insipidus and, 332
- Antigens
HLA class II, 17-24
- Antihypertensive drugs
hypertension in elderly and, 32-34
- Anti-inflammatory drugs
repetitive motion injuries and, 4
ulcerative colitis and, 498-500
- Antioxidants
adult respiratory distress syndrome and, 201
- Antipsychotics
psychiatric comorbidity with gastrointestinal disease and, 493
- Antireflux procedures
laparoscopic, 153-54
- Antispasmodics
ulcerative colitis and, 500
- Antithrombin III
xenotransplantation and, 349
- Antithymocyte globulin
xenotransplantation and, 357
- Anxiolytics
psychiatric comorbidity with gastrointestinal disease and, 493
- Aortic dissection
catheter ablation in supra-ventricular tachycardia and, 424
- Aortic stenosis
catheter treatment of congenital heart disease and, 160-61
- Aortic valve obstruction
fetal surgery and, 69-70
- AP1 binding site
nuclear hormone receptor gene superfamily and, 448
- APC gene
colon cancer and, 377-78
familial adenomatous polyposis and, 373-74
- APOA-I
pancreas transplantation in diabetes and, 292
- APOB
pancreas transplantation in diabetes and, 292

- Apolipoproteins
tissue factor pathway in-
hibitor and, 108
- Appendectomy
laparoscopic, 152
- AQP2 gene
diabetes insipidus and,
339-40
- Aqueductal stenosis
fetal surgery and, 69-70
- Aquaporin-2
diabetes insipidus and,
333-34
- Arachidonic acid
metabolites
adult respiratory distress
syndrome and, 198
- Arginine vasopressin (AVP)
diabetes insipidus and,
332
- Arteriography
hypertension in elderly
and, 31
- Arteriovenous fistulae
catheter ablation in supra-
ventricular tachycardia
and, 424
- Arthritis
rheumatoid
HLA class II antigens
and, 18-23
- Asacol
ulcerative colitis and, 499
- Ascites
refractory
transjugular intrahepatic
portosystemic shunts
and, 95-96, 99-100
- Ascorbic acid
adult respiratory distress
syndrome and, 201
- Asian/Pacific Islanders
tuberculosis and, 50
- Asians
HLA class II antigens and,
18
- Aspergillosis
bone marrow transplan-
tation and
 β -thalassemia and, 324
unrelated donors and, 176
- Aspirin
ulcerative colitis and, 500
- Ataxia
transmissible spongiform
encephalopathies and, 57,
60-62
- ATGAM polyclonal antilym-
phocyte globulin
pancreas transplantation in
diabetes and, 288
- Atherectomy
glycoprotein IIb/IIIa an-
tagonists and, 261-62
- Atherosclerosis
diabetes and, 277, 290, 292
- hypertension in elderly
and, 31-32
- Atrial septal defect
catheter treatment of con-
genital heart disease and,
164-65
- Atrioventricular junction
supraventricular tachyar-
rhythmias and, 414, 416,
420-21
- Atrophy
cumulative trauma disor-
ders and, 9
- Attenuated adenomatous
polyposis coli
familial adenomatous poly-
posis and, 372-73
- Augmenter of liver regenera-
tion (ALR)
fulminant hepatic failure
and, 189
- Aurintricarboxylate
amyotrophic lateral sclero-
sis and, 138
- Autoantibodies
insulin-dependent diabetes
mellitus and, 20-21
- Autoimmune diseases
amyotrophic lateral sclero-
sis and, 136-38
HLA class II antigens and,
17-18, 21
- Autoimmune thyroiditis
subclinical hypothyroidism
in depression and, 40
- Autologous peripheral blood
stem cell transplantation
(AB SCT)
bone marrow and, 303-5
- Autologous transplantation
bone marrow and, 301-3
- Autosomal dominance
diabetes insipidus and, 336
hypertrophic
cardiomyopathy and, 213
nuclear hormone receptor
gene superfamily and,
451
transmissible spongiform
encephalopathies and, 60
- Autosomal recessive disor-
ders
diabetes insipidus and,
339-40
nuclear hormone receptor
gene superfamily and, 451
- AVPR2 gene
diabetes insipidus and,
336-39
- Azathioprine (AZT)
pancreas transplantation in
diabetes and, 288, 290
ulcerative colitis and, 499,
502
- Azulfidine
ulcerative colitis and, 499

B

- Bacteremia
transjugular intrahepatic
portosystemic shunts and,
99
- Bacterial infections
bone marrow transplan-
tation in β -thalassemia and,
327
- Balloon dilation
catheter treatment of con-
genital heart disease and,
160-63
- Basal ganglia
schizophrenia and, 116-17
- B cells
Epstein-Barr virus-associ-
ated posttransplant lym-
phoproliferative diseases
and, 381-92
xenotransplantation and,
348-49, 355-56
- Becker's myotonia
voltage-gated ion chan-
nelopathies and, 432, 437,
439
- Beclomethasone
ulcerative colitis and, 499
- Behavioral stress
subclinical hypothyroidism
in depression and, 39
- Behavioral treatments
psychiatric comorbidity
with gastrointestinal dis-
ease and, 493-94
- Benign polyclonal polymor-
phic B-cell hyperplasia
Epstein-Barr virus and, 386
- Benzodiazepines
alcohol in elderly and, 129
psychiatric comorbidity
with gastrointestinal dis-
ease and, 493
- β -blockers
hypertension in elderly
and, 33
microalbuminuria in diabe-
tes and, 87-88, 90-91
- Beta carotene
adult respiratory distress
syndrome and, 201
- β -N-methylamino-apL-
alanine (BMAA)
amyotrophic lateral sclero-
sis and, 135
- Beta sheets
transmissible spongiform
encephalopathies and, 58
- BIBU 104
glycoprotein IIb/IIIa an-
tagonists and, 263
- Bilateral hydronephrosis
fetal surgery and, 74-75
- Bilirubin
fulminant hepatic failure

- and, 188
- hepatitis C virus and, 313
- Biphosphonates
 - osteoporosis and, 253
- Bipolar disorder
 - subclinical hypothyroidism in depression and, 41
- Bladder
 - pancreas transplantation in diabetes and, 288-89
- Blalock-Taussig shunts
 - catheter treatment of congenital heart disease and, 164
- Bleeding
 - variceal, 95-96, 98-100
- Blood
 - coagulation
 - tissue factor pathway inhibitor and, 103-10
 - infected
 - HIV in health care setting and, 203-8, 210
 - loss
 - fetal surgery and, 68
- Blood factors
 - tissue factor pathway inhibitor and, 103-10
- Blood pressure
 - fulminant hepatic failure and, 186
 - microalbuminuria in diabetes and, 79-91
- Blood urea nitrogen (BUN)
 - pancreas transplantation in diabetes and, 285
- B-lymphoma
 - bone marrow transplantation in β -thalassemia and, 327
- Body substance isolation
 - HIV in health care setting and, 207
- Bone marrow transplantation
 - multiple myeloma and, 299-306
 - β -thalassemia and, 319-29
 - from unrelated donors
 - donor search and, 173-74
 - engraftment and, 174
 - graft versus host disease and, 174-76
 - histocompatibility and, 170-71
 - introduction to, 169
 - opportunistic infections and, 176
 - overview of, 170
 - recurrent malignancy after transplantation, 176
 - registries of HLA-typed volunteer donors, 171-73
 - survival and, 176-78
- Bone mass
 - osteoporosis and, 249-54
- Bone morphogenetic proteins
 - osteoporosis and, 249, 254
- Bovine spongiform encephalopathies
 - human transmissible spongiform encephalopathies and, 59
- Brain
 - Creutzfeldt-Jakob disease and, 58-59
 - imaging
 - in schizophrenia, 113-19
 - myotonia and, 440
 - nuclear hormone receptor gene superfamily and, 448
 - subclinical hypothyroidism in depression and, 39, 41, 44
- Brain-derived neurotrophic factor (BDNF)
 - amyotrophic lateral sclerosis and, 141
- Brain-gut associations
 - psychiatric illness and, 487-88
- Branched-chain DNA (bDNA)
 - hepatitis C virus and, 309
- Breast cancer
 - nuclear hormone receptor gene superfamily and, 451
- Breast hypertrophy
 - cumulative trauma disorders and, 8, 10
- Breiquinar sodium
 - xenotransplantation and, 355
- Budd-Chiari syndrome
 - fulminant hepatic failure and, 183
 - transjugular intrahepatic portosystemic shunts and, 95
- Budesonide
 - ulcerative colitis and, 499
- Buspirone
 - psychiatric comorbidity with gastrointestinal disease and, 493
- Busulfan
 - bone marrow transplantation and
 - in multiple myeloma, 300
 - in β -thalassemia, 321-23
- Butanedione monoxine
 - organ preservation and, 244
- C**
 - C5A complement fragments
 - adult respiratory distress syndrome and, 197
 - c7E3 chimeric antibody
 - glycoprotein IIb/IIIa antagonists and, 260-62, 264
 - c100 antigen
 - hepatitis C virus and, 311
 - Ca²⁺
 - amyotrophic lateral sclerosis and, 136-41
 - CAGE questionnaire
 - alcohol in elderly and, 128
 - Calbindin-D_{28k}
 - amyotrophic lateral sclerosis and, 139-40
 - Calcitonin
 - osteoporosis and, 253
 - Calcitriol
 - osteoporosis and, 251
 - Calcium
 - osteoporosis and, 249-52, 254
 - Calcium channel blockers
 - hypertension in elderly and, 33-34
 - Calcium channels
 - amyotrophic lateral sclerosis and, 136-41
 - voltage-gated ion channelopathies and, 432-33, 438-39
 - Cancer
 - breast, 451
 - colon, 371-78, 503
 - pancreatic, 361-70
 - Cannibalism
 - kuru and, 58
 - Captopril
 - hypertension in elderly and, 31
 - Carbohydrates
 - ulcerative colitis and, 500
 - voltage-gated ion channelopathies and, 438
 - Carcinoids
 - omeprazole and, 400
 - Zollinger-Ellison syndrome and, 408
 - Cardiac chamber perforation
 - catheter ablation in supraventricular tachycardia and, 424
 - Cardiac mapping
 - catheter ablation in supraventricular tachycardia and, 418, 420, 422
 - Cardiac tamponade
 - bone marrow transplantation in β -thalassemia and, 326-27
 - catheter ablation in supraventricular tachycardia and, 424
 - Cardiomyopathy
 - hypertrophic, 29, 213-20
 - Cardiovascular disease
 - hypertension in elderly and, 27-34
 - left ventricular remodeling after myocardial infarction and, 455-64

- microalbuminuria in diabetes and, 79, 85-86, 89
 nuclear hormone receptor gene superfamily and, 451
 pancreas transplantation in diabetes and, 282, 284-86, 292
 subclinical hypothyroidism in depression and, 38
- Carmustine**
 bone marrow transplantation for multiple myeloma and, 302, 304
- Carpal tunnel syndrome**
 cumulative trauma disorders and, 2-3, 5, 7-9, 12-13
- Cascade theory**
 of blood clotting
 tissue factor pathway inhibitor and, 103-5, 110
- Catalase**
 adult respiratory distress syndrome and, 201
- Catheter ablation**
 supraventricular tachycardia and, 413-27
- Catheter-directed therapies**
 for congenital heart disease
 angioplasty and, 161-63
 balloon dilation and, 160-63
 closure procedures and, 163-66
 collaborative therapy of complex heart disease, 166
 introduction to, 159-60
 valvuloplasty and, 160-61
- Cationic exchangers**
 chronic wound therapies and, 476
- Caucasians**
 alcohol in elderly and, 126
 amyotrophic lateral sclerosis and, 134
 bone marrow transplantation from unrelated donors and, 173-74
 carcinoma of head of pancreas and, 362, 365
 Creutzfeldt-Jakob disease and, 60
 diabetes and, 270
 HLA class II antigens and, 18-19
 hypertension in elderly and, 28
 tuberculosis and, 48, 50
- Cavitation**
 tuberculosis and, 51
- CD34-positive cells**
 bone marrow transplantation for multiple myeloma and, 303
- Cell-mediated immunity**
 xenotransplantation and, 351-54
- Centers for Disease Control (CDC)**
 HIV in health care setting and, 205, 207
- Central nervous system (CNS)**
 psychiatric comorbidity with gastrointestinal disease and, 483-86, 490-91
- Cerebral cortex**
 schizophrenia and, 115-18
- Cerebral edema**
 fulminant hepatic failure and, 182, 186
- Cerebral ischemia**
 hypertension in elderly and, 28
- Cerebrospinal fluid (CSF)**
 subclinical hypothyroidism in depression and, 44
- Cervical disc disease**
 cumulative trauma disorders and, 9
- Cesarean section**
 fetal surgery and, 68-69, 73
- Channel-forming integral protein**
 diabetes insipidus and, 334
- Chemotherapy**
 bone marrow transplantation for multiple myeloma and, 300, 302-5
 rheumatoid arthritis and, 20
 tuberculosis and, 50-51
 Zollinger-Ellison syndrome and, 405
- Chest cavity**
 fetal surgery and, 71
- Child's classification**
 transjugular intrahepatic portosystemic shunts and, 98-101
- Children**
 bone marrow transplantation in β -thalassemia and, 319-29
 diabetes and, 20, 22, 277
 reduced-size hepatic liver transplantation and, 507-11
 tuberculosis and, 47-48, 53
- Chloride channels**
 voltage-gated ion channelopathies and, 432, 439-40
- Cholangiography**
 carcinoma of head of pancreas and, 362
- Cholecystectomy**
 laparoscopic
 as minimally invasive surgery, 149-51
- Cholesterol**
 xenotransplantation and, 347
- Chromosome 1**
 hypertrophic cardiomyopathy and, 213, 215-16, 218
- Chromosome 6**
 HLA class II antigens and, 17
- Chromosome 11**
 hypertrophic cardiomyopathy and, 213, 215
- Chromosome 14**
 hypertrophic cardiomyopathy and, 213, 215
- Chromosome 15**
 hypertrophic cardiomyopathy and, 213, 215-16
- Chromosome 17**
 colon cancer and, 378
- Chromosome 18**
 colon cancer and, 378
- Chromosome 20**
PRNP gene on, 57
- Chromosome Xq28**
 diabetes insipidus and, 332
- Chronic myelogenous leukemia (CML)**
 bone marrow transplantation from unrelated donors and, 176-77
- Cirrhosis**
 hepatitis C virus and, 309, 312-13
 transjugular intrahepatic portosystemic shunts and, 101
- 9-cis retinoic acid receptor**
 nuclear hormone receptor gene superfamily and, 444, 446-49
- Cleft lip/palate**
 fetal surgery and, 69-70
- Clonazepam**
 psychiatric comorbidity with gastrointestinal disease and, 493
- Clostridium difficile* infection**
 ulcerative colitis and, 500
- Coactivator proteins**
 nuclear hormone receptor gene superfamily and, 450
- Cobra venom factor**
 xenotransplantation and, 356
- Cognitive dysfunction**
 subclinical hypothyroidism in depression and, 41-42
 transmissible spongiform encephalopathies and, 57, 60

- Colapinto needle
transjugular intrahepatic
portosystemic shunts and,
99
- Cold intolerance
subclinical hypothyroidism
in depression and, 43
- Cold-storage solution
organ preservation and,
235-42
- pancreas transplantation in
diabetes and, 288
- reduced-size hepatic trans-
plantation and, 509
- Colitis
extensive, 501-2
- Collagen
chronic wound therapies
and, 468, 478
- left ventricular remodeling
after myocardial in-
farction and, 459
- Collins' solution
organ preservation and,
237-38
- Colon cancer
genetics of
application of molecular
genetics, 378
- DNA mutations and, 377-
78
- familial adenomatous
polyposis and, 372-74
- familial clustering and,
372-77
- hereditary nonpolyposis
colorectal cancer and,
374-75
- inherited syndromes and,
372-77
- introduction to, 371-72
- molecular pathogenesis
and, 377-78
- sporadic colorectal cancer
and adenomatous polyps,
375-77
- ulcerative colitis and, 503
- Colon resection
laparoscopic, 154
- Colony-stimulating factors
(CSFs)
chronic wound therapies
and, 475-76
- Coma
fulminant hepatic failure
and, 182, 185
- Complement
xenotransplantation and,
349, 356
- Complete heart block
fetal surgery and, 69-70
- Computed tomography (CT)
carcinoma of head of pan-
creas and, 361-64
- schizophrenia and, 113-
15
- transjugular intrahepatic
portosystemic shunts and,
97
- Zollinger-Ellison syn-
drome and, 395, 400, 403,
407-8
- Concentric ventricular hyper-
trophy
hypertension in elderly
and, 29
- Congenital cystic adenoma-
toid formation (CCAM)
fetal surgery and, 70, 72-73
- Congenital diaphragmatic
hernia (CDH)
fetal surgery and, 69-72
- Congenital heart disease
catheter treatment of, 159-
67
- Continuous venovenous fil-
tration
fulminant hepatic failure
and, 186
- Copper-binding peptide
chronic wound therapies
and, 476
- Copy DNA (cDNA)
tissue factor pathway in-
hibitor and, 105
- Corneal transplant
Creutzfeld-Jakob disease
and, 59
- Coronary artery fistulae
catheter treatment of con-
genital heart disease and,
164
- Coronary thrombolysis
glycoprotein IIb/IIIa an-
tagonists and, 261
- Corticosteroids
adult respiratory distress
syndrome and, 200
- hepatitis C virus and, 315
- pancreas transplantation in
diabetes and, 290
- ulcerative colitis and, 499,
501-3
- Cortisol
nuclear hormone receptor
gene superfamily and,
447, 450
- Cough
tuberculosis and, 51
- C-peptide assay
diabetes and, 270, 285
- CR1
xenotransplantation and,
356
- Cramping
repetitive motion injuries
and, 2

 - surgical therapy and, 502-3
 - Ulcers
 - chronic
 - wound therapies and, 469-73, 474-76, 478
 - psychiatric illness and, 487
 - Ultrasonography
 - carcinoma of head of pancreas and, 362
 - fetal surgery and, 73, 75
 - Zollinger-Ellison syndrome and, 395, 400, 403
 - Unipolar depression
 - subclinical hypothyroidism in depression and, 39-41
 - University of Wisconsin solution
 - organ preservation and, 235, 239-44
 - pancreas transplantation in diabetes and, 288
 - reduced-size hepatic transplantation and, 509
 - Upper extremities
 - cumulative trauma disorders and, 1-3, 7, 13
 - Upstream activator proteins
 - nuclear hormone receptor gene superfamily and, 450
 - Uremia
 - microalbuminuria in diabetes and, 80
 - Uric acid
 - xenotransplantation and, 347
 - Urinary tract obstruction
 - fetal surgery and, 74-75
 - Urine
 - diabetes insipidus and, 331-32
 - Ursodeoxycholic acid
 - hepatitis C virus and, 314
 - Uterus
 - fetal surgery and, 67-76
- V**
- V₂ receptors
 - diabetes insipidus and, 332-33
 - Vaccines
 - hepatitis C virus and, 315
 - Vacuolar degeneration
 - transmissible spongiform encephalopathies and, 57
 - Valproate
 - fulminant hepatic failure and, 183
 - Valvular regurgitation
 - catheter ablation in supraventricular tachycardia and, 424
 - Valvuloplasty
 - balloon
 - catheter treatment of congenital heart disease and, 160
 - Variceal bleeding
 - transjugular intrahepatic portosystemic shunts and, 95-96, 98-100
 - Vascular endothelial cell growth factor (VEGF)
 - chronic wound therapies and, 475
 - Vascular function
 - diabetes and, 85-86, 268
 - Vascular rejection
 - xenotransplantation and, 348
 - Vascular steal
 - tumor
 - sacrococcygeal teratoma and, 76
 - Venooctclusive disease
 - bone marrow transplantation in β -thalassemia and, 327
 - Venous connections
 - catheter treatment of congenital heart disease and, 164
 - Venous thrombosis
 - catheter ablation in supraventricular tachycardia and, 424
 - Ventricular remodeling
 - post myocardial infarction, 455-64
 - Ventricular septal defects
 - catheter treatment of congenital heart disease and, 166
 - Ventriculomegaly
 - schizophrenia and, 114-15
 - VGCC antibodies
 - amyotrophic lateral sclerosis and, 137-41
 - Vietnam
 - tuberculosis and, 48
 - Vincristine
 - bone marrow transplantation for multiple myeloma and, 300, 302-3
 - Viruses
 - bone marrow transplantation in β -thalassemia and, 326-27
 - transmissible spongiform encephalopathies and, 64
 - Visual signs
 - transmissible spongiform

- encephalopathies and, 57, 61
- Vitamin B₁₂
 - Zollinger-Ellison syndrome and, 397
- Vitamin C
 - adult respiratory distress syndrome and, 201
- Vitamin D
 - osteoporosis and, 249-52
 - nuclear hormone receptor gene superfamily and, 444, 446-51
- Vitamin E
 - adult respiratory distress syndrome and, 201
- Voltage-gated ion channelopathies
 - calcium channelopathies, 438-39
 - chloride channelopathies, 439
 - introduction to, 431-32
 - sodium channelopathies, 433-38
- von Willebrand factor
 - glycoprotein IIb/IIIa antagonists and, 259
 - xenotransplantation and, 357
- VP-16
 - bone marrow transplantation for multiple myeloma and, 303-4
- VSC 4.1 cells
 - amyotrophic lateral sclerosis and, 138-40

W

- Wallstent
 - transjugular intrahepatic portosystemic shunts and, 98, 101
- Wall stress
 - left ventricular remodeling after myocardial infarction and, 457-58, 461
- Waterfall theory
 - of blood clotting
 - tissue factor pathway inhibitor and, 103-5, 110
- Weakness
 - cumulative trauma disorders and, 2, 9, 13
- Weight gain
 - diabetes and, 274-75, 290,

- 292
- subclinical hypothyroidism in depression and, 43
- Weight loss
